

An Allianz annuity can help protect your retirement assets from risk.

You insure your car. You insure your house. Yet many people don't realize they should insure their retirement assets.

The chart on the right illustrates the statistical probabilities of events likely to happen in an average year, and how a portion of that risk can be reduced.

Annuities were designed to meet long term needs for retirement income. With a fixed annuity from Allianz, you can protect your retirement assets from loss. You also have the added benefits of accumulation potential, tax deferral, and the option for guaranteed lifetime income.

Financial risks: Annual likelihood	Possible solution
0.9% Loss of life ¹	 ✓ Life insurance
1.2% Loss of car ²	 ✓ Auto insurance
1.3% Loss of house ³	 ✓ Homeowners insurance
28% Loss of market value ⁴	 ✓ Fixed annuities
